

Cleerline SSF™ Fiber Microscope

Part Number: SSF-MICRO-400X

Verify fiber terminations with the SSF-MICRO-400X handheld fiber optic microscope. This microscope generates a high level of detail via coaxial illumination using a white LED. Images are visible at a magnification of 400x.

Use the SSF-MICRO-400X for verification of fiber optic connectors on cable assemblies, patch cables, and pigtails. Focus can easily be adjusted with the control wheel on the body of the microscope.

For safety when viewing optical fibers, a laser safety filter is built in.

The SSF-MICRO-400X accepts SC connectors by default. A 1.25mm LC adapter is included.

FEATURES AND BENEFITS

- 400x magnification
- LED rated for 10,000 hours of use
- Built-in laser safety filter
- Adjustable focus control wheel
- Accepts SC or LC connectors

SPECIFICATIONS	
LED Life	10,000 hours
Magnification	400x
Weight	0.6 kg / 1.3 lbs
Dimensions	Length: 225 mm / 8.8 in Diameter: 32 mm / 1.25 in
Compatible Connectors	LC, SC
Power Source	3 x AAA Batteries (not included)
