

Planet Waves™ Ultra High Speed HDMI Cables provide full 8K UHD signal transmission for the highest signal transfer quality.

These Ultra High Speed cables are HDMI 2.1 certified and meet all requirements of the standard. Display resolutions of 8K60Hz, 4K120Hz, and up to 10K are fully supported.

In addition to ultra high bandwidth, all cables offer Dynamic HDR (High Dynamic Range) along with WCG (Wide Color Gamut). Enhanced Audio Return Channel (eARC) provides uncompressed audio and sound quality matched to that of the display.

Cables support all features within the HDMI 2.1 specification, including Variable Refresh Rate, Quick Frame Transport, Auto Low Latency Mode, and more.

Planet Waves™ Ultra High Speed HDMI Cables are the highest quality of HDMI interconnects available. All cables are precision-made under the strictest manufacturing tolerances.

Always the "Perfect Length," cables are available in six lengths from 0.5 meters to 3.0 meters (1.64 feet to 9.84 feet), continuing the Planet Waves tradition of incremental length HDMI for the best-dressed racks and installations.

HDMI® HDCP

HIGH-DEFINITION MULTIMEDIA INTERFACE

Product Specifications

Supported Resolution	8K60Hz, 4K120Hz - HDMI 2.1
Throughput	48.0 Gbps
Rating	HDCP 2.2, HDMI 2.1
Audio Transmission	eARC
Dynamic HDR	Yes
Wide Color Gamut (WCG)	Yes
Variable Refresh Rate (VRR)	Yes
Video Connectors	Male HDMI A-to-A
Maximum Length	3.0 m / 9.84 ft

Part Numbers

Length	Part Number
0.5 m / 1.64 ft	PW-UHSH0.5m
0.75 m / 2.46 ft	PW-UHSH0.75m
1.0 m / 3.28 ft	PW-UHSH1.0m
1.5 m / 4.92 ft	PW-UHSH1.5m
2.0 m / 6.56 ft	PW-UHSH2.0m
3.0 m / 9.84 ft	PW-UHSH3.0m
